

# NCLB's Title III, Language Instruction for LEP Students and *IntelliTools® Classroom Suite*

Title III of the No Child Left Behind Act funds the Language Instruction for Limited English Proficient and Immigrant Students program. This program assists school districts in teaching English to limited English proficient students and in helping these students meet the same challenging state standards required of all students.

*IntelliTools Classroom Suite* is a multimedia tool for K–8 curricular support, effective in raising the academic achievement of lower-performing students with limited English proficiency, and in helping schools and districts meet their Adequate Yearly Progress (AYP) goals under the No Child Left Behind Act.

*IntelliTools Classroom Suite* is an excellent application for Title III programs. The culmination of several research projects funded by grants from the National Science Foundation and the National Institutes of Health, it aligns with current research on effective language acquisition programs, including providing a language-rich, hands-on instructional environment.

| <p><b>NCLB Title III Strategies</b></p> <p><b>Ensure that LEP students attain English proficiency</b></p> <p><b>Assist LEP students to achieve in core academic subjects</b></p> <p><b>Help LEP students meet state content standards</b></p> <p><b>Demonstrate improvements in English proficiency</b></p> <p><b>Achieve adequate yearly progress for LEP students</b></p> | <p><b><i>IntelliTools Classroom Suite Solutions</i></b></p> <p><i>IntelliTools Classroom Suite's</i> instructional activities provide scaffolded support and practice for English language learners, aiding in their language acquisition. Teachers can record activity instructions in a student's language, providing a bridge to English. Auditory cues and feedback in English boost vocabulary, pronunciation, and conceptual understanding.</p> <p>Using <i>IntelliTools Classroom Suite</i>, teachers can assign grade-specific reading, writing, or math activities addressing critical content areas students need to master. The hands-on activities are engaging, interactive, motivational, and intentional in skill building. Students can work at their own pace, check their own work, and repeat activities as needed.</p> <p>Teachers can target the critical learning needs of LEP students using their state's content standards and <i>IntelliTools Classroom Suite's</i> aligned practice activities to gauge performance. The activities have embedded answer-tracking, helping teachers identify patterns of errors in order to tailor remediation for students who need time and practice to master a concept.</p> <p>With <i>IntelliTools Classroom Suite's</i> real-time embedded assessment, teachers are able to review and assess each student's progress and performance, record results in individual student portfolios, and print reports for data-driven decision making. Teachers can determine what practice the student needs next and personalize instruction accordingly.</p> <p><i>IntelliTools Classroom Suite</i> provides the individualized instruction, practice, and language acquisition support that schools and districts need to raise the achievement of lower-performing English language learners, and thus their Adequate Yearly Progress (AYP) goals under the No Child Left Behind Act.</p>  |
